

Introduction

This document contains all the information on how to access and use the e-learning website
All the learning resources available on our platform

Company Background: E-Learning at Jordan Universities

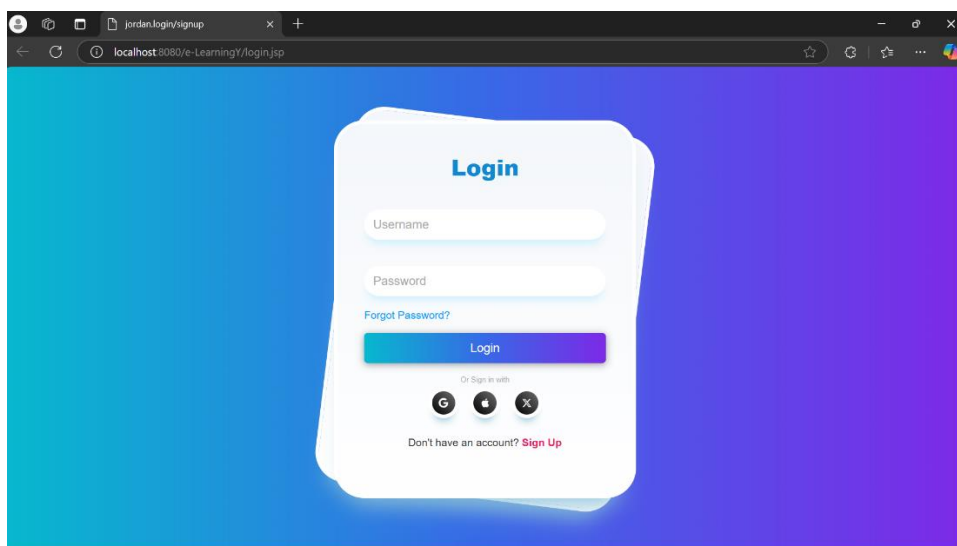

Overview:

E-learning platforms in Jordanian universities are designed to facilitate online education and provide students with access to course materials, lectures, and resources remotely. These platforms aim to enhance the learning experience by integrating technology into the educational process. Also many universities in Jordan have been investing in digital education technologies to adapt to the growing demand for online learning. This trend has been accelerated by global events such as the COVID-19 pandemic, which necessitated remote learning solutions.
